

This form is printer friendly. Please print and use it to record the needed measurements. Then fill in the form electronically, answer a few additional questions, and submit. One of Tadpole Adaptive's Therapists will contact you to discuss the recommended size of equipment.

## Measurement Form

Standing Measurements (or laying on back)

A B

C D

E F

Seated Measurements

G  
H  
I

J K

L

M

<b>A</b>	Floor to Buttocks (Most frequently used when measuring for a Kaye Walker)
<b>B</b>	Floor to Elbow or Bent Arm
<b>C</b>	Inseam (Groin to Heel)
<b>D</b>	Floor to Armpit
<b>E</b>	Floor to Wrist (Arms relaxed at sides)
<b>F</b>	Standing Height (Laying measurement OK)
<b>G</b>	Chest Width
<b>H</b>	Hip Width (Measure in a straight line. If unsure, place a book touching each hip and measure distance between books)
<b>I</b>	Width at Knees (Observe position. Are knees wider than hips? Or windswept to one side or another? Record in notes below)
<b>J</b>	Knee to Heel (Consider measuring with shoes or any braces that are frequently worn)
<b>K</b>	Seat to Top of Head (Measure with support as if the assistive device was being used)
<b>L</b>	Seat Depth (Back of knee to the back of the Buttocks or surface of the back of the chair)
<b>M</b>	Seat to Shoulder (Measure with support as if the assistive device was being used)
