

RECARO Monza Nova 2 Reha

Booster seat for children with special needs

”

The safety of my child is most important to me. Generally, I am a careful driver, but you never know. In case of an accident I have to be 100% sure that the car seat protects my child against injuries.

Susanne Bessel, mother

“

RECARO Monza Nova 2 Reha is reliably tested many times

- ✓ FMVSS 213 (*NHTSA Standard for USA Car Seats*)
- ✓ UN/ECE R 44/04
(United Nations Economic Commission for Europe – regulation for child restraint systems)
- ✓ DEKRA (*tests for „Special Needs Restraint“*)
incl. testing of all rehab accessories
- ✓ Manufacturer’s guarantee

Pay attention to this seal

Thus you can be sure that the **rehab seat** successfully passed the necessary overload-test up to 50 kg / 110.2 lbs according to ECE R 44/04.

ACCESSORIES

The practical padded swivel base, the Seatfix connection for ISOFIX and the footrest give additional stability.

The seat wedge inside and below provide a relaxed resting position during the journey. The abduction block offers extra positioning for children whose legs cross or "scissor".

The table is a support surface and an additional impact shield that also prevents the child from attempting to unbuckle the 5-point positioning harness.

EXTRA SUPPORTIVE
 for children with special needs

RECARO Monza Nova 2 Reha

Lightweight booster seat exceeds highest safety standard

Quick and easy seat transfer from one vehicle to another.

Improved strength and static-free side pads reduce crash-generated forces to the head, neck and shoulders by up to 30%.

30%

Lightest rehab seat in its class that you can carry with one finger ...
Yet it carries a child up to 15 to 50 kg / 33 to 110 lbs.

Extra-firm armrests for even greater protection in the event of side impact.

Thomashilfen Finely designed to make life easier
