

INSTRUCTIONS

Nuprodx bath/commode chairs and slider systems are known for their ability to fit in cramped spaces others simply can't. While we have yet to find a bathroom we can't accommodate, a few simple measurements will insure the best fit of your chair. Follow the descriptions below, and enter the measurements. Round up or down to ½-inch increments, and use the decimal system (for example, 10.5 for 10 and one-half inches). If you have any questions, please call and let us help you, because that's what we do
